

FEATHER FLAG

STRAIGHT EDGE

Feather Flags feature a straight trailing edge, giving you the largest printable area for maximum impact and visibility from a distance.

MAXIMUM PRINT AREA

Straight edge provides the largest space for logos, text and designs.

HIGH VISIBILITY

Taller and wider shape makes your message easy to see from far away.

PERFORMS WELL IN WIND

The open edge allows wind to flow through, reducing resistance and increasing stability.

BLADE FLAG

CURVED EDGE

Blade Flags feature a curved bottom edge, which keeps the fabric under tension for a sleek, modern and premium look.

TENSIONED FABRIC

Curved edge keeps the flag tight and looking great, even in lighter winds.

PREMIUM LOOK

The curved shape creates a sleek, stylish and professional appearance.

EXCELLENT IN LIGHT WIND

The curved edge helps keep the fabric stretched and stable, even in light breezes.

THE ONLY DIFFERENCE IS THE EDGE SHAPE.

Both Feather and Blade Flags use the same high-quality fabric, poles and printing. The choice comes down to the look you prefer and how you want your flag to perform in different conditions.

WIND FLOW

Feather Flags let more wind pass through for extra stability. Blade Flags hold the fabric tighter for a sleek look.

FABRIC TENSION

Blade Flags maintain tension across the curved edge, keeping the fabric stretched and looking premium.

BEST USE

Feather Flags are great for high-visibility and bold messaging. Blade Flags are ideal when you want a sleek, refined and professional finish.
